

RIDGED SLATS®

SLAT™
WAREHOUSE

Ridged Slats® from Slat Warehouse, are designed and manufactured to provide an economic form of privacy and decorative color to the structure, stability and longevity of a chain-link fence. **Ridged Slats®** are single wall, flat angular extrusion formulated using High Density Polyethylene (HDPE), combined with additives to ensure color and functionality for many years. Together with the capability of enduring years of ultra-violet exposure from the sun, **Ridged Slats®** also utilize a unique locking feature, which secures the product firmly in the chain link mesh, and deters any theft or vandalism of the product.

- **Design** – Every **Ridged Slat®** piece has a beveled cut on one end, as well as a notch, which is snapped into the **Viper Channel™** locking rail at the bottom of the fence and keeps each slat level, and securely in place.

• **HDPE Properties**

Melt Index: (.08) A low melt index indicates improved stress and crack resistance.

Density: (.953) High density for maximum stiffness without becoming brittle.

Minimum Temperature: (-75° F) Polyethylene will not become brittle above this temperature.

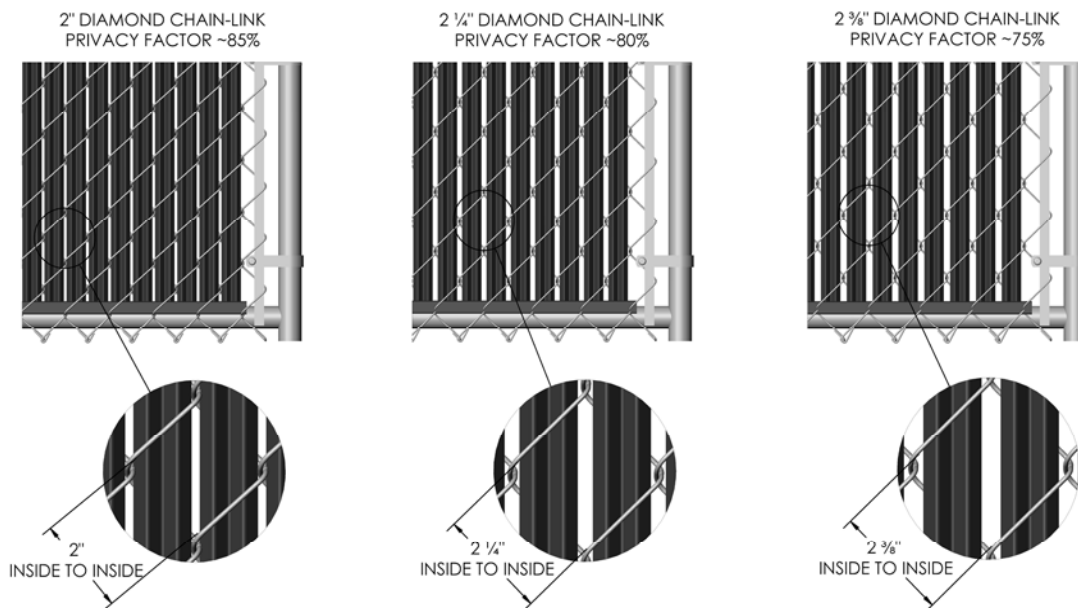

Maximum Temperature: (190° F) Polyethylene will not soften and/or distort below this temperature when installed in the chain-link wire.

Tensile Strength: (4,000 psi) Polyethylene will not suffer any distortions at lesser loads or impacts.

- **Colors** – Available in 9 standard colors; White, Beige, Gray, Sky Blue, Royal Blue, Green, Redwood, Brown, Black (custom colors available on request, with minimum order requirements)
- **Heights** – Available in standard heights of 3', 4', 5', 6', 7', 8' (custom lengths available on request, with minimum order requirements).
- **Packaging** – The packaging is a 2" x 4" box, which contains 82 pieces, sufficient to cover 10 linear feet of chain link fence with 2" or 2 ¼" mesh. Also contained in the package are 3 **Viper Channel™** pieces each 42" in length (allowing for 10' of coverage with 6" for spare). Inside the package, these channels are attached together with tape, installation instructions and a strip of 'orange' ribbon extending out the end of the package so they are easily located for installation.
- **Warranty** – For details on the limited 30-year warranty, please contact Slat Warehouse directly, or refer to www.slatwarehouse.com.

RIDGED SLATS® PRIVACY COMPARISON
SLAT WIDTH = 1-1/4" (1.25")
